5 days are indeed needed to cover it all. Good pace, theory/practices well balanced after the first day.

La quantité d'informations est très importante. Un peu plus de temps pourrait être nécessaire pour finaliser l'ensemble de LAB.

Different approaches chosen by the lab: directive for some, loose for some others, interesting

How important are printed materials?

imprimer un peu plus gros. Merci.

The practical labs document is useful when doing the labs : no need to switch on the electronic version, we can focus on the practice

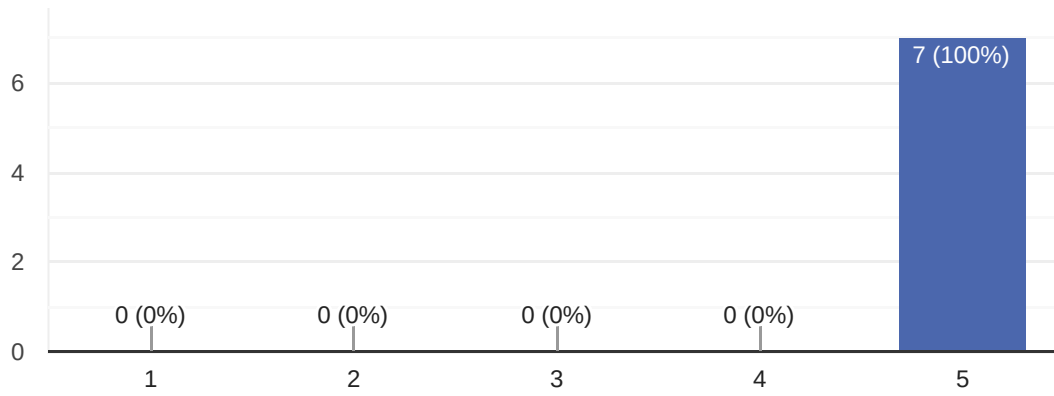

pratique de conserver une référence sous la main (mais ok pas obligatoire)

PDF is preferred for searching in the document, copy/paste. Only used paper version for the lab.

Les supports de cours son très complet

Useful, could take some time with everyone attending the course. However not relevant if all participants are Linux newbies, would not time enough I guess.

Indispensable ! d'un très grand secours

manque de temps

Difficulty is raising during the week, should progress prior to the agenda in early week to complete it all

Difficulté croissnate mais vraiment intéressant

Was enough time dedicated to practical labs?

mais en même temps il faut aussi pouvoir dérouler la documentation donc pas évident

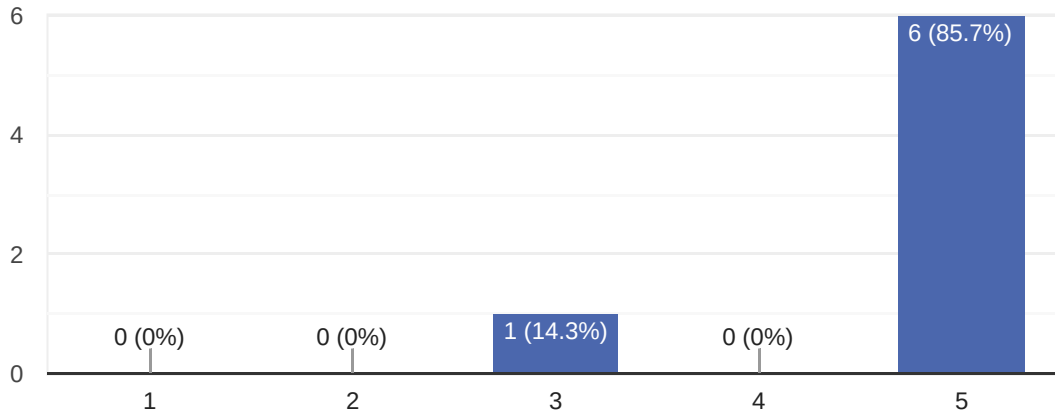

Will depend on your current Linux skills & organization, feasible with some extra efforts after the class.

Les lab pourraient être plus long et servir pour présenter des concept

Thanks for your support and patience, Instructor attitude was great.

pas de besoin réel avec mon poste

Formation parfaite partant des bases pour atteindre un très haut niveau. Il faut toutefois être parfaitement familier avec LINUX sans quoi la formation devient très intense.
