It might have been more useful to probably have a platform like the Raspberry Pi so that people can do labs on their own in these remote classes. Something to consider for future.

Was enough time dedicated to practical demos?

4 responses

## Comments and suggestions

1 response

More would have been better.

How well was the course organized (program, registration, schedule...)?
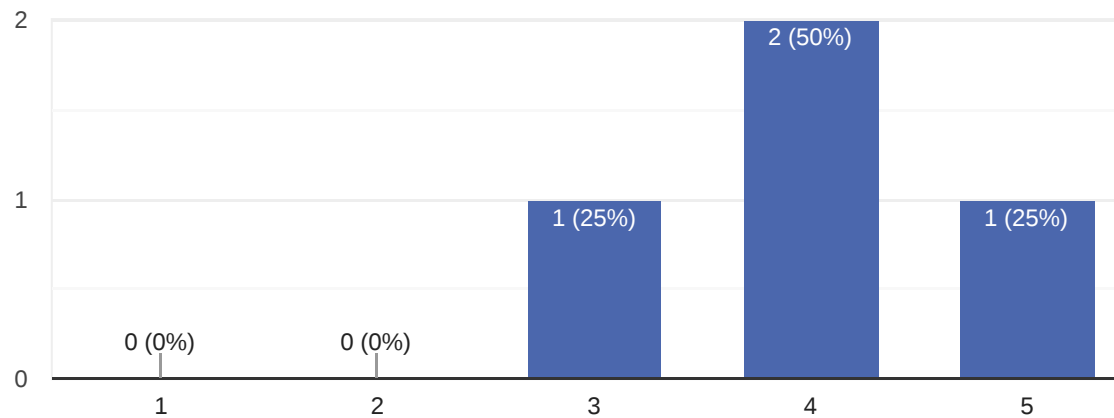

4 responses

Bootlin's support for the open-source community is appreciated! We definitely need more companies doing this.
