More small repetitions of the lecture/demo context would help to strengthening the understanding.

Me being HW engineer, not very experienced in SW and focused on HW parts of the course (beginning and end).

How useful were the practical demos?

Really complex topic at some point and I will definitely need to go through the materials at self pace

Me being HW engineer, not very experienced in SW and focused on HW parts of the course (beginning and end).

What part(s) of the course did you like most?

3 responses

Practical Demos.

First half and ending.

Memory related content and kernel debugging

What part(s) of the course did you like least?

2 responses

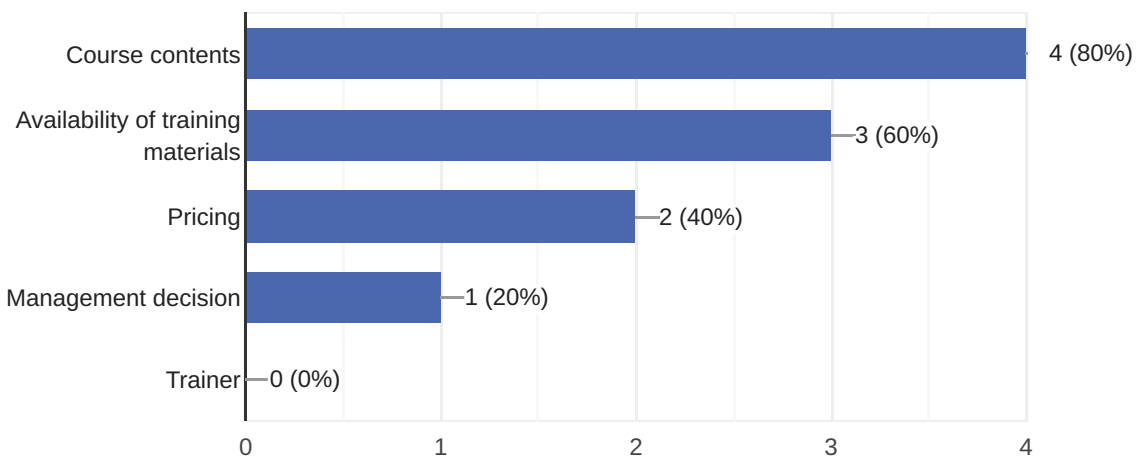

DMA, memory management

Probably RCU API

What reasons prompted you to choose a Bootlin course?
