# Bootlin training course evaluation
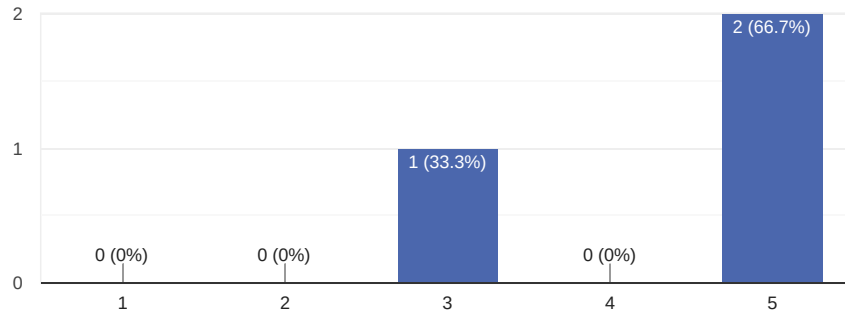

3 responses

## How did the course meet your learning objectives?
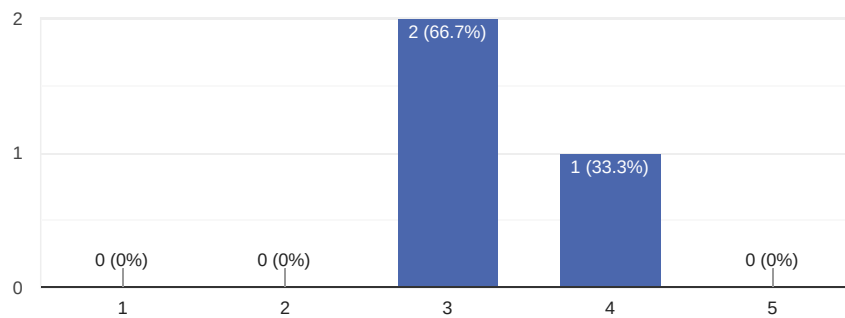

3 responses

## Comments and suggestions

1 response

Since I'm not currently working on a project using Yocto, this training was to discover the possibilities and features. From that point of view, it was very interesting and meaningful.

## How was the duration of the course?

3 responses

## Comments and suggestions

1 response

A bit too long for me on the last day (our course was 4 half days) because the features there were too specific for an introduction to Yocto.

## How useful were the training materials?

3 responses

## Comments and suggestions

1 response

Because of the COVID situation, training was online only. Labs proposed were interesting but I could not manipulate anything.

## How knowledgeable was the instructor?
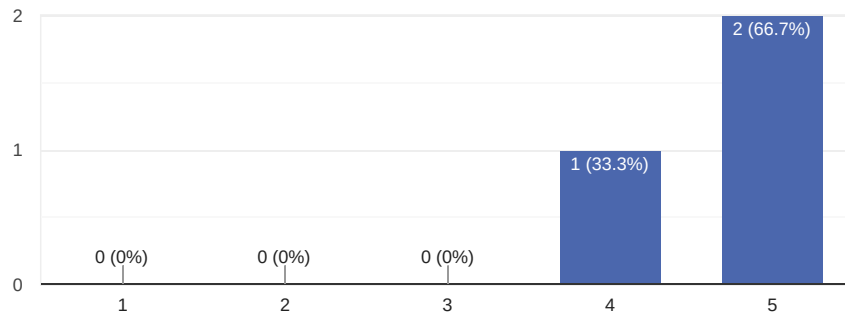

3 responses

## How useful should this course be in your daily job?

3 responses

## Comments and suggestions

1 response

Knowledge about Yocto it more and more requested in my branch (Automotive) and in all embedded project. It's not useful right know for me, but I'm sure it will in future.

## What part(s) of the course did you like most?

2 responses

Lab Demo

The beginning was interesting as I never did embedded linux
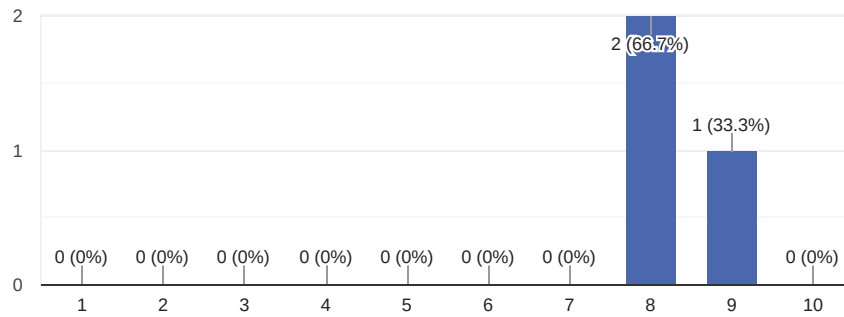

## What part(s) of the course did you like least?

1 response

The end of the course was to much advanced compared to my knowledge

## Overall rating

3 responses

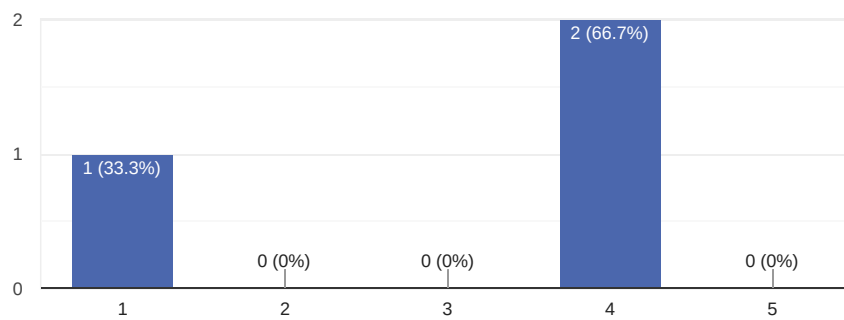

## Comments and suggestions

1 response

Maxime Chevallier was a very good trainer, I liked this course a lot.
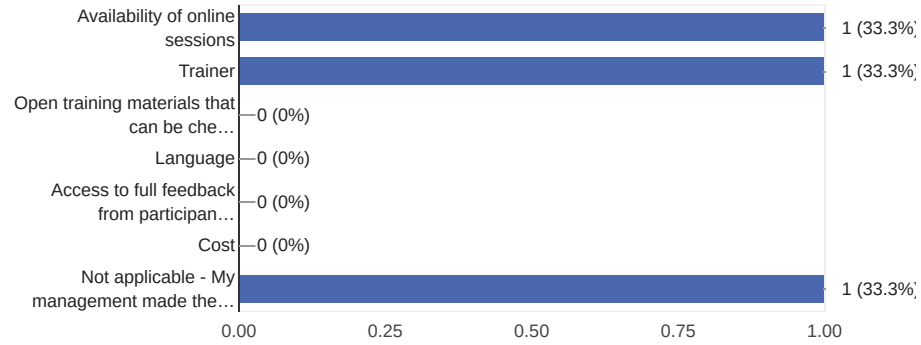

## Further training needs?
